

ELECTROCLEAN ECO QUICK™

DESCRIPTION

ELECTROCLEAN ECO QUICK is a special blend of non-chlorinated and powerful degreasing solvents with a controlled evaporation rate, formulated to remove grease, oil, carbon deposits and other residues from electric parts and equipment without damaging painted or varnished metal surfaces, insulating materials and cables.

ELECTROCLEAN ECO QUICK is an ideal replacement for chlorinated electro cleaners as it has low non-volatile residue effect.

ADVANTAGES & CHARACTERISTICS

- ◆ Removes completely oil, grease, carbonaceous and various deposits leaving no dry dirt or stains behind.
- ◆ Free of chlorinated solvents.
- ◆ Safe for both the environment and user.
- ◆ Offers quick penetration and complete action.
- ◆ Safe to use on painted or varnished metal surfaces.
- ◆ A controlled evaporation rate gives efficient cleaning results as opposed to slow drying solutions.
- ◆ Rinsing not required after application.
- ◆ It is non corrosive to metals and machinery parts.
- ◆ Preserves and maintains electrical equipment in its original state.
- ◆ It has low non-volatile residue value.
- ◆ Cost effective, easy to apply and ready to use.

PHYSICAL PROPERTIES

ELECTROCLEAN ECO QUICK is a vaporous, volatile, concentrated product of low flammability, non-corrosive and non-conductive with controlled evaporation rate.

Appearance/Color	: Clear, colorless liquid
Specific gravity	: 0.79 - 0.85 gr/cm ³ at 20°C
Flash Point	: >60°C
Stability	: Stable under normal conditions
Odor	: Odorless

PACKAGING

Order Number	: 832585 (25 ltrs)
Container	: Steel drum

APPLICATION AND USE

A. Application Procedure

ELECTROCLEAN ECO QUICK should be applied neat, at a proportional quantity to the degree of contamination on parts/equipment. The operator/user should determine the quantity needed depending on the degree of cleaning and the size of the part(s) in each case. **ELECTROCLEAN ECO QUICK** should not be used diluted.

B. Cleaning Procedure

Once the quantity of **ELECTROCLEAN ECO QUICK** has been determined, apply to contaminated parts/equipment by brushing, wiping or by immersion (for small parts). After finishing the cleaning procedure in generators and motor parts the remaining solvent may be helped to fully evaporate with the use of dry compressed air of low pressure. Then, warm air blowers must be used for quick dry.

Note that after use, the product must always be well sealed in its metallic drum.

► IMPORTANT NOTICE

When cleaning with this product, all equipment should be offline and discharged.

! SAFETY AND HANDLING

HANDLING	Handle with care. Store in a dry, cool and well ventilated environment.
SAFETY	IMMEDIATE ACTIONS
Eye Contact	Avoid Eye contact. Otherwise, flush with plenty of water for a few minutes. Seek medical attention.
Skin Contact	Avoid Skin contact. Otherwise, wash contaminated area thoroughly with water. Seek medical attention.
Inhalation	Do not breathe gas/vapors. In case of insufficient ventilation, wear suitable respiratory equipment. Otherwise, seek fresh air source at once and ask for medical attention immediately.
If Swallowed	Avoid ingestion. If swallowed, do not induce vomiting; seek medical advice immediately and show the label of the product.
GENERAL INSTRUCTIONS	Avoid spillage, splashing and mishandling. Wear suitable protective clothing, gloves and eye/face protection before using the product.

 **Read the Material Safety Data Sheet before using this product.**
